

# Integrating Purchasing, Logistics And Inventory with Suppliers

01 to 05 August 2010 / Kuala Lumpur, Malaysia

Eliminating functional silos is an imperative if organizations are to achieve the high levels of customer satisfaction and reduced cost demanded of the supply chain. Eliminating these silos requires creative integration of critical functions that react with both suppliers and customers. The good news is that technology is an “enabler” that is helping the functions involved in supply chain management respond to these new demands. This seminar is designed to provide the processes and tools for Purchasing, Logistics, and Inventory activities to integrate their methods with suppliers and leverage technology to meet the needs of the organization.

## YOU WILL LEARN HOW TO:

- Concepts related to Supply Chain Management
- Technological tools to improve Inventory, Logistics, and Purchasing operations
- How to better integrate key elements of the supply chain
- Methods to reduce cost, inventory, and cycle time
- How to avoid common errors in reengineering
- Resources to increase their knowledge and skill sets

## WHO SHOULD ATTEND

Professionals involved in purchasing, logistics, operations, and inventory activities that want to learn how better supply chain integration can bring significant improve to the organization’s performance.
